

Mastectomy Products

Here's a refreshing idea for women after breast surgery - they can keep their cool, no matter what they're doing. Hot flash? Working out? Warm summer day? All under control. How? Simply by wearing Amoena's Classic Light breast form with Climate Control technology. This revolutionary new breast form addresses the two most common complaints women have about their breast forms. Heat and Weight. Climate Control technology, only from Amoena, works by absorbing excess body heat into the cool gel layer of the Climate Control pad while a soft textile fabric wicks moisture away from the chest wall to leave them cool and comfortable. In addition, lightweight silicone relieves strain on the shoulders. Go ahead, be cool.

Do you have one of our mugs?

If not, drop in and see us. These are free and are great for coffee or hot chocolate.

Letting their colors show

We make each prosthesis to suit the uniqueness of the patient.

Many want the appearance to be as real as possible.

Some wish to have a custom graphic finish on their prosthesis.

Imagination is the only limitation

Leg-Up

Able Prosthetic Care, Inc. is pleased to announce the implementation of a new program specifically designed to assist individuals who have no insurance or who have inadequate coverage. The program is called the Leg-Up Prosthetic Care Assistance program. The need for such a program has become more evident in recent years as we are seeing more and more people who's insurance coverage limits or excludes prosthetic care entirely. Under this program no amputee who is willing to help themselves will be turned away or have to be without a prosthesis that could get them back to a more productive lifestyle. This is not, however, a charity program but rather a cost sharing program in which Able Prosthetic Care, Inc. will help those who have done all they can to help themselves. By redirecting funds which would normally be spent on marketing efforts, Able Prosthetic Care can more directly aid the amputee in real need. It is our firm conviction that if the patients are taken care of well, they will be our best marketing tool.

If you have a patient in real need who is willing to help themselves please let us know.

Just for Laughs

A friend sent us this picture.
It's entitled: "Pot of Gold"

Inspirations

We have loved watching "Dancing with the Stars" from the very first season. We were very excited to see Heather Mills, a below the knee amputee, participate. We think she did very well and hope she was an inspiration to everyone! But the old joke is: the amputee asks "Can I dance once I get my prosthesis?" The prosthetist says, "Sure." The amputee says "That's funny, I couldn't dance before I had the amputation!"

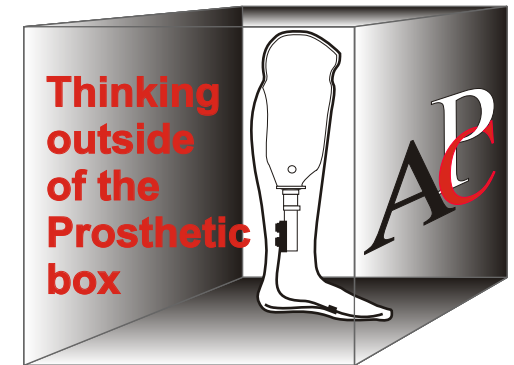

Insurance News

We are very excited to announce that in the last few months Able Prosthetic Care, Inc. has been awarded several new insurance contracts. The insurance plans we are currently on:

- ☞ Amerigroup
